The information contained herein should be attributed to the Energy Information Administration and should not be construed as advocating or reflecting any policy position of the Department of Energy or any other organization.

Preface

The *Natural Gas Monthly (NGM)* is prepared in the Natural Gas Division, Office of Oil and Gas, Energy Information Administration (EIA), U.S. Department of Energy (DOE), under the direction of Joan E. Heinkel.

General questions and comments regarding the *NGM* may be referred to Ann M. Ducca (202) 586-6137. Specific technical questions may be referred to the appropriate persons listed in Appendix E.

The *NGM* highlights activities, events, and analyses of interest to public and private sector organizations associated with the natural gas industry. Volume and price data are presented each month for natural gas production, distribution, consumption, and interstate pipeline activities. Producer-related activities and underground storage data are also reported. From time to time, the *NGM* features articles designed to assist readers in using and interpreting natural gas information.

The data in this publication are collected on surveys conducted by the EIA to fulfill its responsibilities for gathering and reporting energy data. Some of the data are collected under the authority of the Federal Energy Regulatory Commission (FERC), an independent commission within the DOE, which has jurisdiction primarily in the regulation of electric utilities and the interstate natural gas industry. Geographic coverage is the 50 States and the District of Columbia.

Explanatory Notes supplement the information found in tables of the report. A description of the data collection surveys that support the *NGM* is provided in the Data Sources section. A glossary of the terms used in this report is also provided to assist readers in understanding the data presented in this publication.

All natural gas volumes are reported at a pressure base of 14.73 pounds per square inch absolute (psia) and at 60 degrees Fahrenheit. Cubic feet are converted to cubic meters by applying a factor of 0.02831685.

The Energy Information Administration (EIA) Solicits Comments Concerning its Natural Gas Surveys:

EIA issued a Federal Register Notice on March 29, 1999, soliciting public comments on proposed revisions and the extension of its natural gas surveys. This notice is available online at <http://www.eia.doe.gov/oss/ngconsul.html> or by request to Margaret Natof at EIA. Ms. Natof may be contacted by telephone at (202) 586-6303 or by email at margaret.natof@eia.doe.gov. Comments must be submitted by May 28, 1999.

The Energy Information Administration will be Soliciting Comments Concerning its Natural Gas Information Program:

EIA will be issuing a second Federal Register Notice in April 1999 concerning its *Next Generation * Natural Gas* project. The project will design and implement a new, comprehensive information program for natural gas. This notice will be available online at <http://www.eia.doe.gov>. Comments must be submitted within 60 days of the publication of the notice. Questions concerning the *Next Generation * Natural Gas* project may be directed to Ann Ducca at (202) 586-6137.
